Online Workshops & other resources

Autumn update 2021

All workshops are open to all pharmacy professionals, including provisionally & trainee pharmacists

HIGHLIGHTING useful e-learning resources with new PQS in mind

- Preparing for community pharmacy practice fantastic new self-directed e-course for those returning to community pharmacy or newly qualified https://www.cppe.ac.uk/programmes/l/prepare-ec-01
- Remote consultation skills e-learning a great resource to help you develop your video or phone-based person centred consultation skills
 - https://www.cppe.ac.uk/programmes/l/consultrem-e-01
- Inhaler technique for health professionals: getting it right e-learning looks at how the devices work and why making simple changes when we are speaking to people using inhaled medicines can improve health outcomes https://www.cppe.ac.uk/programmes/l/inhalers-e-02
- Fundamentals of respiratory therapeutics ecourse -hugely comprehensive self-directed ecourse for all things respiratory!
 https://www.cppe.ac.uk/programmes/l/respiratory-ec-01
- Sepsis gateway page that brings together lots of useful resources from trusted sources. https://www.cppe.ac.uk/gateway/sepsis
- Reducing look alike sound alike errors (LASA)
 e-learning:
 https://www.cppe.ac.uk/programmes/l/safe
 tylasa-e-01
- Anticoagulation gateway page: this includes video learning "Anticoagulation: what a good consultation looks like". Do you know what the ORBIT bleeding risk score is that is now advised instead of HASBLED by NICE? https://www.cppe.ac.uk/gateway/anticoag

- Professional judgement and professionalism for pharmacy technicians - a great e-learning for those that are new to the profession https://www.cppe.ac.uk/programmes/l/professionalism-e-01
- Substance use and misuse: e-course and assessment – 4 modules designed to support pharmacy professionals to provide personcentred care for people who use / misuse substances. Fully updated and revised programme! https://www.cppe.ac.uk/programmes/l/tlp-e-13

Trainee Pharmacists undertaking foundation training year

Are you going to be supporting a new trainee pharmacist as they start their foundation training year? Here are just a few CPPE resources that will support their learning

- <u>Clinical history taking: What a good</u>
 <u>consultation looks like e-learning</u>. This video based e-learning programme considers the
 key skills pharmacy professionals can use to
 take an effective clinical history.
- <u>Risk management guide</u> and associated <u>e-assessment</u>. This guide supports pharmacy professionals to learn more about how they can manage the risks that are inherent in their practice.
- Preparing for community pharmacy practice fantastic new self-directed e-course for those returning to community pharmacy or newly qualified
 - https://www.cppe.ac.uk/programmes/l/prepare-ec-01

Online Workshops & other resources

Autumn update 2021

All workshops are open to all pharmacy professionals, including provisionally & trainee pharmacists

Online workshops open for Bookings
October 2021 to March 2022

NEW! Hypertension - online : CPPE online workshop aims to enable you to support people with hypertension and consider how to optimise their treatment using a shared decision making approach. The North East, Yorkshire and Humber team are running online events on 16th March book here: Chris and Gill Hypertension and 24th March book here: Oliver and Maxine Hypertension — early workshops are already full, other dates are available here: Hypertension online workshop other dates.

Asthma and COPD online workshops: As we approach the Winter season why not take time to reflect how you and your team can support people living with asthma or COPD effectively? Our local tutors are facilitating both of these workshops on dates throughout this period: Asthma 5th October Maxine and Sue Asthma online workshop and 10th November Matt and Simon asthma online workshop, COPD: 19th January Kristeen and Paul COPD online workshop.

Neurology & Dementia – full day event: This online workshop aims to update your clinical knowledge of the pharmaceutical management of several long-term neurological conditions to enable you to help facilitate the seamless transfer of care for people living with these conditions between different care settings. With the help of expert speakers you will consider how to support people living with multiple sclerosis, Parkinson's, Acquired Brain Injury and Lewy Body dementia. The North East, Yorkshire and Humber team are running an event on 24th November book here: Paul and Cath Neurology and Dementia study day. These events fill quickly, other dates are available here: other dates neurology & dementia study days.

Antimicrobial stewardship online workshop: this programme will encourage the pharmacy team and other healthcare professionals to make antimicrobial stewardship a routine part of their practice. Our local teams are facilitating these events on 6th October, book here: Matt and Paul Antimicrobial stewardship and 8th March, Book here: Catherine and Sue antimicrobial stewardship, other dates are available here: National dates antimicrobial stewardship workshop

Falls prevention: take time during this workshop to reflect on how you can help prevent people falling, identify those at risk of falling and with the insight of an expert speaker consider how the pharmacy team can support people who have fallen. Our local teams are facilitating these events on 22nd November Oliver and Kristeen Falls prevention and 9th February Kristeen and Cath Falls prevention other dates are available here: National dates falls prevention workshop

The Mental Capacity Act and covert administration of medicines online workshop This workshop features an expert speaker who will help you to develop your knowledge and skills to help you manage and optimise care for patients who might lack mental capacity to make a specific decision relating to their medicines at a given point in time. Sue and Cath from our NE team are facilitating this event on 2nd February 2022, book here: Sue and Cath MCA workshop, other dates are available here: National dates MCA workshop

Depression online workshop At least a third of the population will experience an episode of mild depression during their lifetime. The burden imposed on family, carers and the wider society is reduced if depression is recognised early and treated effectively. This programme will equip pharmacy professionals to identify how they can address the concerns of people with depression, optimise their medicines and achieve
