21 st September	Kristeen Turner & Debbie Needham	https://www.cppe.ac.uk/store/checkout?e=56893
-------------------------------	-------------------------------------	---

Community pharmacy focus – Pharmacy Quality Scheme pages and track your progress

The Pharmacy Quality Scheme support you023/2024 went live on 1 June 2023, and our updated CPPE [Pharmacy Quality Scheme pages](#) will support you and your community pharmacy team to meet this year's training requirements.

The pages include information on the domains with quality criteria requiring completion of learning and assessment. This year, there are only two domains with training requirements: Respiratory and Prevention. You can monitor your own PQS progress using our [PQS tracker](#), which will support you to complete the CPPE learning and assessment included in this year's scheme.

NEW Optimise Workshop resources for you to use independently with your team

****BRAND NEW** Medicines Reconciliation in transfer of care optimise workshop** describes how to complete a medicines reconciliation in accordance with national recommendations, will help you identify possible barriers and solutions to medicines reconciliation and explain how medicines reconciliation is important during transfer of care. You can either book to join an online workshop <https://www.cppe.ac.uk/programmes/l/medsrecon-ew-01> or **you can download the materials to learn with your team or colleagues wherever and whenever you wish. For more information about how to do this click here:** [Medicines reconciliation in transfer of care : CPPE](#)

Other topics that can be used in this way include vaccine hesitancy and sepsis – with more new topics in the pipeline. Check here: [optimise programme listing : CPPE](#) for more information.

Pharmacy technician focus

- Have you seen: [Pharmacy technicians: enhancing your professional practice : CPPE](#) e-course yet? The aim of this self-directed e-course is to support you to recognise how your skills, knowledge, understanding and professional behaviours allow you to provide safe and effective care to the people you serve, as the pharmacy technician role continues to evolve.

Trainee Pharmacist or Newly qualified or moving areas of practice?

- **Trainee pharmacists** – have you seen
 - **our Clinical factsheets** – wide range of clinical conditions, concise information in one place [Clinical factsheets : CPPE](#)

- CPPE Leading for change FREE 6months leadership program, more details [Leading for change : CPPE](#)
- NEW Chief pharmaceutical officers pharmacy leaders development program, more details [CPhO's pharmacy leaders development programme : CPPE](#)

New e-learning and resources for all

- **BRAND NEW** : [Supporting people living with anxiety : CPPE](#) new e-learning programme that will develop your confidence in undertaking culturally competent person-centred consultations with people living with anxiety. It will enable you to have an open dialogue with people about their anxiety and reduce the health inequalities they experience because of their mental health.
- **NEW**: [Cancer: supporting people with early diagnosis : CPPE](#) for all areas of pharmacy practice, how to help early detection, more about screening services and support people to access these.
- [Fundamentals of public health for pharmacy practice](#) e-course – fully updated
- [Health inequalities : CPPE](#) e-learning explores what is meant by the term “health inequality” and how does it affect people using health services.
- [Culturally competent communication in person-centred care e-learning](#) People with lived experience of prejudice, discrimination and inequality provide their tips on culturally appropriate language to reduce the risk of causing offense and promote a sense of belonging, inclusion, dignity and respect. [Culturally competent person-centred care \(cppe.ac.uk\)](#) learning gateway signposts other non CPPE resources.
- [Controlled drugs in chronic pain: supporting patients with safe and effective use : CPPE](#) e-learning. Explore the risks, challenges and consequences associated with a growing use of prescribed controlled drugs.
- CPPE’s [Genomics learning gateway](#) provides learning and resources to support pharmacy professionals to develop their knowledge of genomics. [Introduction to genomics in pharmacy e-learning](#) plus associated [e-assessment](#) is a fabulous introduction to the topic and highlights the opportunities they can bring to the provision of person-centred care in your area of practice.
