

Online workshops until end March 2025

Are you a Pharmacy Technician looking to further develop your role? As Pharmacy technicians' roles expand and diversify, reflection remains a powerful tool to help improve decision making and ensure high-quality provision of care. Join CPPE tutors Debbie Needham and Kristeen Turner on 18th March 7-9pm for this interactive online workshop [Reflective practice online workshop : CPPE](#) .There are other dates available if you can't join us on this occasion. This workshop will help you to start or continue your reflective practice journey. It is open to all registered pharmacy technicians.

Can you confidently talk with **people who are prescribed valproate** about the need for contraception? We have a superb workshop that can help you with this – the materials have been developed directly from conversations with people who are taking valproate, what their concerns are and how they would like healthcare professionals to approach these challenges with them. Join our tutors on line on either [Valproate: the hard conversations online workshop 4th March](#) or [Valproate: the hard conversations online workshop 11th March](#)

Just launched: [Advancing your practice in education pathway: CPPE](#) for pharmacy professionals in any sector looking to advance their practice in education, training and development of others. Try our **new Education** learning gateway which brings together core, foundation and advanced learning resources to support you as an educator or trainer.
